

CHESTER and GARY TRAINS WITH LEONIE

[Leonie Bramall](#) is a Canadian born dressage rider/trainer and coach based in Germany. Not only has she represented her country at an Olympic level, she has produced and trained numerous horses to FEI and helped national and international riders with their horses. Leonie moved to Germany at the tender age of 18 and worked with [Johann Hinnemann](#). Over the next 15 year, she became a major figure in Johann's stable sharing responsibilities of training horses and riders. We are fortunate to have Leonie visiting Australia and Gary and [Chester](#) took this opportunity and attended a clinic held at [Windhill Dressage Stables](#) on 25th and 26th January 2009.

This is what Gary had to say about the clinic:

"Where do I start?, Leonie is a trainer that rides every stride with you. She was quick to identify our areas of improvement and assisted by providing fundamental schooling exercises to build on our basics. I love the way she communicates with her clear descriptions, explanations and analogies. I got so much from the clinic and I will definitely be attending another clinic when she is back in Australia."
